

Kentucky Recyclers Association, Inc.

www.KentuckyRecyclers.com

We Are Seeking New Members!

There are laws and ordinances being passed or proposed all across Kentucky that affect our businesses. Kentucky Recyclers Association (KRA) gives our members an opportunity to be heard! Complete the form below to join today.

KRA was organized to serve public interests, to provide a means of communication between KRA and all other groups interested in or affected by the metal recycling industry, and to use all lawful means to bring about closer cooperation, goodwill and friendly interaction among scrap metal producers, consumers, and dealers.

KRA and the Kentucky Sheriff's Association Partnership

The KRA and the Kentucky Sheriffs Association have partnered together to sponsor responsible legislation that will streamline the purchasing of scrap automobiles and give law enforcement the tools they need to apprehend car thieves.

Be a Part of the Solution

Everyone in the recycling business understands that the down-turn in the markets has drastically reduced profits and made individual companies make difficult decisions. In response, the Kentucky Recyclers Association voted to reduce membership dues for 2017. We need each and every recycler from the smallest business to the largest corporation to join the KRA and support our industry in Frankfort.

Join Us Today!

Company: _____

Contact Name: _____

Address: _____

E-Mail Address: _____

City, State, Zip: _____
